Environment and energy policy

Environment and Energy policy of Janta College aims to manage energy in such way as to reduce its environmental impacts in order to encourage sustainable and eco-friendly behaviour on campus. College maintain a clean and green campus by encouraging staff and students to adopt it.

Vision

To make campus and its surroundings clean and green to conserve nature and the local resources and to raise knowledge of eco-friendly practices that protect both the environment and human health.

Ours Mission and Objectives

- To raise environmental awareness among students and college employees.
- To encourage college employees and Students to make modest environmental observation efforts.
- To ensure that environmental resources are used wisely in order to satisfy the needs and ambitions of both the present and future generation.
- To periodically undertaken audits of environmental an energy use.
- To eliminate plastic from College Campus.
- To reduce the use of paper in administration by establishing an e-governance policy.
- To encourage plantation for making of green campus
- To ensure minimum consumption of light by using of LED Bulb and CFL

Ours activities of environment and energy conservation

- To evaluate how much energy we use and how it affects the environment.
- To install in solar photovoltaic panels for producing alternative energy.
- To deploy sensor-based lighting and LED bulbs through-out the Campus.
- To Create a methodical waste management System.
- To create a rainwater harvesting System.
- To promote the utilization of cutting-edge technology in order to reduce energy usage, air pollutants, noise etc.
- To enhance the environmental awareness.
- Water management, Solid waste management, control use of vehicle in campus.
- Conduct a green audit in order to achieve our long-term sustainability
